

Burlap Tree Skirt

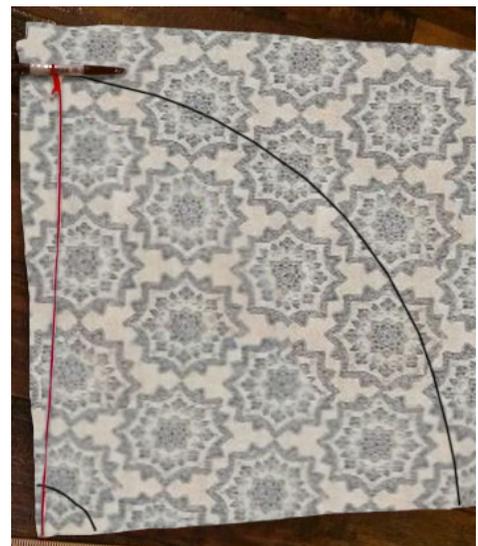

Things you will need:

- 1 ¼ yards of burlap with a snowflake design
- 2 packages of navy quilt binding and straight pins
- 2 bottles each of Scribbles 3D Fabric Paint in Glittering Golden Platinum and Glittering Confetti
- 5mm royal blue sequins
- Sewing machine
- Navy blue thread
- Fabri-Tac Permanent Adhesive
- Yardstick, string, and marker for marking where to cut

Cutting the Fabric:

1. Make sure your fabric is folded evenly lengthwise. Lay it on the table and fold it evenly in half to make a square.
2. Tie one end of the string to a marker. Measure the string so that it is 20 inches long.
3. Place the other end of the string at the corner of the fabric and pull the string taut toward the edge of the fabric.
4. Hold the string at the corner while making a circular shape with the marker. This is the outer edge of the tree skirt after it is cut.
5. Repeat the same process for the center, except measure the string to 2 inches long.

6. Cut along these lines leaving the fabric folded.
7. Open the fabric so that it is folded in half a circle. Cut the fold on one side. This will make easier to put around the tree base.
8. If your fabric is wrinkled, iron it before moving on with the design.

Design Directions:

1. Pin the binding around the burlap making sure that the edge of the burlap is between the fold of the binding.
2. Sew the binding to the burlap using a sewing machine. This can be done by hand but the machine is much quicker.
3. Lay the burlap out flat and use the 3D paints to accent the design.
 - Use the Glittering Gold Platinum to outline the flower design in the center of each snowflake medallion.
 - Use the Glittering Confetti tracing over the 'm' design in the center design.
 - Use the Glittering Gold Platinum to cover the diamond shapes inside the outer design of each snowflake.
4. Allow the tree skirt to lay flat and dry overnight.
5. Use the Fabri-Tac Adhesive to attach the sequins to the center of each flower design in the snowflakes.
6. Allow the glue to dry overnight before moving.
7. Once the glue is dry, place the tree skirt around your tree base and enjoy the sparkle.
