

Keep It On Topic Game

Instructions:

1. A facilitator works with two children who are trying to have an on-topic conversation. The facilitator provides a topic.
2. Kids take turns in conversation about the provided topic.
3. Each time a child says something that's on topic, he or she receives a green light token. Each time a child says something that's off topic, he or she gets a red light.
4. Conversation continues until you run out of green light tokens or the facilitator stops the game. The child with the most green light tokens is the winner.
