

Flower Costume

Things You'll Need

- 4 rectangles of stiff craft felt in desired color
- One piece of felt fabric in green
- Small piece of hook and loop tape
- Sewing machine and thread
- Scissors
- Measuring tape
- Dressmaker's pencil
- Pins

What to Do

1. Print out the pattern and cut out the pieces.
2. Measure your dog's neck and add two inches. Cut the green collar part to the appropriate size.
3. Cut out the desired number of petal shapes. This will depend on the size of the green collar, but you'll need the petals to overlap each other slightly.
4. Fold the green collar piece lengthwise and mark the center with a dressmaker's pencil.
5. Leaving one inch on each end of the green collar piece without petals, arrange the petals along the center line. Ensuring outer tabs are facing one way and the inner tabs are facing the other. Pin the petals in place.
6. Sew on both sides of the petals to secure the tabs to the collar.
7. Fold in both of the outer edges of the green collar piece so the petal tabs are covered. Topstitch in place.
8. Sew the hook and loop tape to the ends of the green collar piece and try the flower costume on your dog.
