

Embroidered Felt Tree

Things You'll Need

- One piece of red craft felt
- Small amount of synthetic stuffing
- Eight inches of red ribbon
- White embroidery floss
- Embroidery needle
- Scissors

What to Do

1. Use the pattern to cut out two tree pieces.
2. Embroider the center of each tree as desired to give the impression of tiny ornaments.
3. Stack the two tree pieces with their wrong sides together.
Use a running stitch to sew about 1/8 inch from the raw edge.
4. When you get to the top of the tree, insert both ends of the ribbon to create a hanging loop.
Secure with stitches.
5. Before closing the tree, stuff it with a small amount of synthetic stuffing. Finish sewing.
