

## Reversible No-Sew Fleece Family-Sized Throw

### Things You'll Need

- Two yards of fleece fabric
- Two yards of complementary fleece fabric
- Sharp scissors
- Pins
- Ruler or tape measure

### What to Do

1. Print out the pattern and enlarge.
2. Fold one of the fleece pieces in half with the short sides together. Fold it into quarters. Place the pattern on top of the folded fabric and cut through all four layers.
3. Repeat with the other piece of fabric.
4. Spread out one piece of fleece, and then spread the other piece on top of it. Line it up so the edges match and pin them together.
5. Make 2.5-inch-deep cuts every one inch around the outside edge, going through both layers of fabric. This will create a fringe.
6. Starting near a corner, tie one bottom piece of fringe to one top piece of fringe. Continue until you've gone all the way around the edge. Remove all pins.
