

Christmas Present Card

Tools and Materials:

- Two sheets of construction paper in different colors
- Craft ribbon
- Scissors
- Craft glue
- Felt tipped marker

1. Begin with a blank sheet of construction paper. Fold the paper in half to make the card.

2. Cut two strips of a different color paper, one measuring the width of the folded paper and one the height of the folded paper. Each strip should be about 1-inch wide.

3. Arrange the two strips on the paper criss-crossing each other in the center. Glue the strips to the card.

4. Cut two pieces of ribbon. The pieces should measure the same lengths as the paper strips. Glue one piece of ribbon across the card in the center of the first strip.

5. Repeat with the second piece of ribbon in the center of the second strip of paper.

6. Cut a third piece of ribbon and tie it in a bow. Glue the bow in the center of the card to complete it.

7. Use a felt tipped marker to write a personal message on the inside of the card.
