Origami Star Box Instructions

1. Begin with a square sheet of origami paper face down. Fold the paper in half horizontally, vertically, and both diagonal ways. Unfold all folds.

2. Fold the paper down into one of the corners. If you are familiar with origami terms, this is called a square base fold.

3. Fold the topside flaps into the center.
4. Open the flaps up and squash them down. Repeat steps 3 and 4 on the other side.

5. Fold over the top left flap and repeat steps 3 and 4. Flip the paper over, fold over the top left flap and repeat steps 3 and 4.

6. Fold the bottom point upwards as high as it will go.
7. Fold over each flap and repeat step 6.

8. Stick your fingers in the opening in the center of the paper and gently push the model open. Flatten the bottom of the model as you do this. Your box will begin to take shape and form a star shaped opening.
