Origami Diamond Box

1. Begin with a square sheet of origami paper facing up. Fold the paper in half both ways and unfold. Fold the paper in half diagonally both ways and unfold. Fold the two side points in to meet the center.

   ![Step 1](image1)

2. Fold the right side point over to meet the crease of the left side.

   ![Step 2](image2)

3. Fold the right side point back out.

   ![Step 3](image3)
4. Fold the left side point over to meet the right point.

Step 4

5. Fold the left point back out to form a diamond in the center of the model.

Step 5

6. Gently pry open the bottom flaps and bring the bottom point to the top point of the center diamond. This will create a squash fold.
7. Fold the top flap of this new fold downwards.

8. Repeat steps 6-8 on the other side of the model.

9. Fold the bottom point up to meet the top.

10. Fold the top two side points into the center.

11. Leaving the last two folds in place, fold the flap back down.
12. Repeat step 11 on the other side of the model.
13. Fold the points underneath the model to form a square in the center.

Step 13

14. Place your finger in the center of the square and gently pry it open into a box shape.

Step 14
