

Beaded Border Bracelet

Materials:

- Light weight yarn
- One large bead
- 24 small beads
- 4mm crochet hook

Stitches Used:

- Chain stitch
- Chain stitch with bead
- Slip stitch
- Double crochet stitch

Instructions:

1. Cut a long piece of yarn. Thread the large bead on first then all of the small beads. Make a slip knot and then make a chain stitch with the large bead. Make a regular chain stitch, then one with the next bead. Continue this until you have used all the beads.
2. Make five more chain stitches. Turn and make a slip stitch in the fourth chain from the hook. This will form a loop to go around the large bead as a clasp.
3. Continue going in the same direction. Make two double crochet stitches in between each bead all the way across. Tie off yarn.
4. To wear the bracelet, put it around your arm and loop the large bead through the chain loop.
