

Crochet Solid Book Cover

1. Make a foundation chain two inches longer than the width of your book's cover while open.
2. Chain two and make a half double crochet in each stitch across.
3. Repeat row two until the cover is long enough to cover the book then tie off.
4. Fold one inch of the cover over on each side. Sew the flap on the bottom and top to each side. This makes pockets to slide the book's edges into to hold the book in place.
