

## How to Make a Paper Dollhouse Nightstand

### Instructions

1. Print this document.
2. Cut out the shape on the last page of this document.
3. Follow the instructions below for folding.

Fold your square paper in half horizontally. Unfold. Fold the paper in half vertically. Unfold. Fold each corner into the middle. In origami, this form is called a blintz base.

Fold the top and bottom sides into the center. Unfold. Fold the left and right sides into the center.

Partially unfold the paper. Lift up the top flap and push the sides in. Add a bit of glue to secure the model. Repeat this process with the bottom flap. In origami, this model is referred to as a [masu box](#).

Turn your masu box into a nightstand by flipping it over and standing it up on one of the thin sides next to your doll's bed.
