

Lost Lamb Craft

The Lost Lamb story in the Bible tells about the shepherd who searches for every lamb to come home safely. One craft idea is to create paper bag puppets that resemble lambs so the children can retell the story. Additionally, children can make their own lambs using an old egg carton and other simple materials.

Supplies

- Egg carton
- Cotton balls
- Black construction paper
- Scissors
- Googly eyes

Instructions

1. Cut the lid off the egg carton and discard or save it for another craft project
2. Cut the bottom of the egg carton up into 12 individual egg cups
3. Turn one cup upside down and glue two to four cotton balls onto it until it resembles a sheep's body
4. Cut two U-shaped ears out of a sheet of black construction paper
5. Glue each ear onto opposite sides of the sheep
6. Add two googly eyes in front to complete the face

It's not necessary to give the lambs legs. Simply tell children that the sheep is too fluffy for its legs to be seen. The benefit of using the egg carton sections as a base is that kids can easily maneuver the sheep without them falling over.
