

Hanging Cross Project

The cross is perhaps the most prominent symbol in the Christian faith. A cross can be made out of anything, from cardboard to twigs. It can be cross-stitched on a bookmark, made out of crochet, drawn, beaded or made from just about anything. For a group of children, creating a cross with common craft supplies is the easiest and often most creative approach.

Supplies

- 2 craft sticks (also known as Popsicle sticks)
- Glue
- Yarn
- Paint and paint brushes

Instructions

1. Paint the craft stick in any color or pattern, and allow the paint to dry completely
2. Make a cross shape by joining the two sticks
3. Add a dab of glue to secure them together
4. Cut a piece of yarn that is 5 inches long
5. Wrap the yarn around the area where the two sticks join, criss-crossing to add stability
6. Tie a knot to secure it
7. Cut a small length of yarn
8. Thread it through the tied yarn at the back of the cross
9. Tie a knot to create a hanging loop
