

TOUCH ME.  
...then it's my turn...  
Then I'll tell you where  
you should touch me next.  
How your fingers get there  
is up to you...

Just a touch:  
don't get too carried away  
or move too fast.

I'm going to ask you  
to blindfold me.  
Or maybe I'll just  
close my eyes.  
Then you get to touch me  
with two fingers  
anywhere you'd like.
