

Geography Bingo Cards

Instructions: Print and cut the cards below. Use the cards along with the Geography Bingo board printable.

Caller should randomly draw a card from a pile and say the name of the state. Players have to check their boards to see if they have the corresponding capital city. If they do, they use a marker to mark that space. First person who can mark a straight line in any direction is the winner. The state capitals are listed on the card so the caller can verify the accuracy of the answers from the players.
