

# Alternative Scary Witch Look

If green face paint isn't your style, consider this alternative witch look. There's no elaborate face painting or pointy hat, but this witch style still conveys a slightly sinister air that will help you cast a spell over your companions.

## Makeup Supplies

- Pale matte foundation makeup
- Black eyebrow pencil
- Black pencil eyeliner
- Black mascara
- Lipstick in whichever color you like

## Instructions

1. Apply the foundation makeup first to give your skin a pale, other-worldly glow. Don't bother adding rouge to warm up your cheeks; this look is meant to be cold.
2. Use the eyebrow pencil to darken your brows and give them a more menacing look.
3. Use the eyeliner to line your eyes heavily and really draw attention to them.
4. Add a coat of mascara to your lashes.
5. Apply the lipstick. You can use a more neutral shade to keep the attention focused on your eyes. Red lips work great if you want to be a scary-yet-sexy witch, and black lipstick will maximize the scary factor if you really want to play that up.
