

# Wicked Winter Witch Makeup

Capture the cold-hearted, icy stare of a winter witch with this look. You'll need a bit of attitude to really pull off the look.

## Makeup Supplies

- White foundation
- Powder blue, plum, and teal eye shadows
- Liquid eyeliner, your choice of black or navy
- Black or navy mascara
- Rosy blush
- Frosty white or pale pink lipstick

## Instructions

1. Apply a thin layer of the white foundation to your entire face.
2. Apply powder blue eye shadow to your eyelids all the way up to your brows.
3. Line the bottom of your eyes with the plum shadow.
4. Apply the teal shadow beginning at the inner corners of your upper eyelids, and pull it across the lids along the lash line and past the outer corners to create a "cat eye" look.
5. Apply a thin line of liquid liner all the way around your eyes.
6. Apply the blush to your cheeks.
7. Apply the lipstick. The white will show through various shades of pink, depending on your natural lip color.
