

Leis

Create some fun leis to go along with the hula skirts. Once they're made, kids can have additional fun decorating each guest that comes through the door.

Materials

- Silk flowers or flower petals
- Hole punch
- Yarn
- Scissors

Instructions

1. Locate the center of each silk flower or flower petal and punch a hole in it with a hole punch.
2. Cut a piece of yarn to approximately 18 inches in length and thread the flowers or petals onto it. If using individual petals, turn the petals as you thread them so they overlap one another in different directions, simulating real flowers.
3. Tie the two ends of the yarn together at the top and trim off the excess yarn.
