

Luau Wind Sock

Make some luau-themed wind socks that can be hung around the party for decoration or taken home for a fun souvenir.

Materials

- 8 x 11 sheet of colored craft foam
- Hole punch
- Brass fasteners
- Foam flowers
- Paper streamers
- Scissors
- Glue
- String

Instructions

1. Punch four holes down each side of the short ends of the foam sheet.
2. Bend the sheet into a tube and push the brass fasteners through the holes. Bend the prongs on each of the fasteners backwards to secure the tube.
3. Glue some foam flowers onto the exterior of the tube. Try stacking different colored flowers on top of one another to help vary the effect.
4. Cut the paper streamers to about 24-inches long and glue them to the inside bottom of the tube, allowing them to trail downward.
5. Cut a piece of string about 18-inches long and glue the ends to the interior of the top of the tube to make a loop it can be hung from.
6. Allow the glue to dry before hanging.
