

3D graduation cap pattern

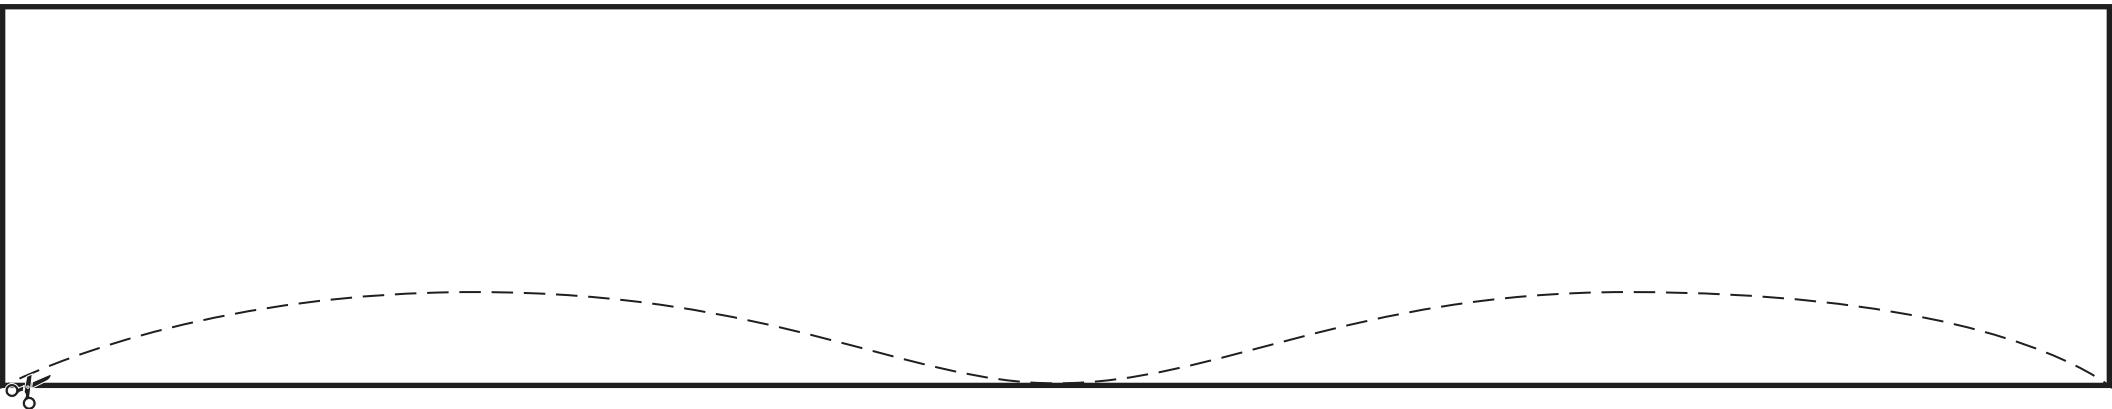

Materials: scissors, tape, glue, a pencil, and a tassel.

Directions:

1. Cut out the Bottom Band piece as a full rectangle.
2. Cut out the scalloped parts from the Bottom Band.
3. Put the ends of the Bottom Band together so the band becomes a circle. Secure with glue or tap on the inside of the band.
4. Cut out the square Top Board.
5. Use a hole punch to make a hole in the center of the Top Board.
6. String a tassel through the hole and secure with tape, glue, or a large knot.
7. Center the circular Bottom Band, flat side down, on the bottom side of the Top Board.
8. Trace the inside edge of the Bottom Band onto the bottom side of the Top Board.
9. Remove the Bottom Band and squeeze a thin strip of clear-dry glue around the outside edge of the traced circle.
10. Place the Bottom Band, flat side down, on the strip of glue and leave until it dries.
11. Flip the hat over so the scalloped side of the Bottom Band is on the table.
